## SERVICES

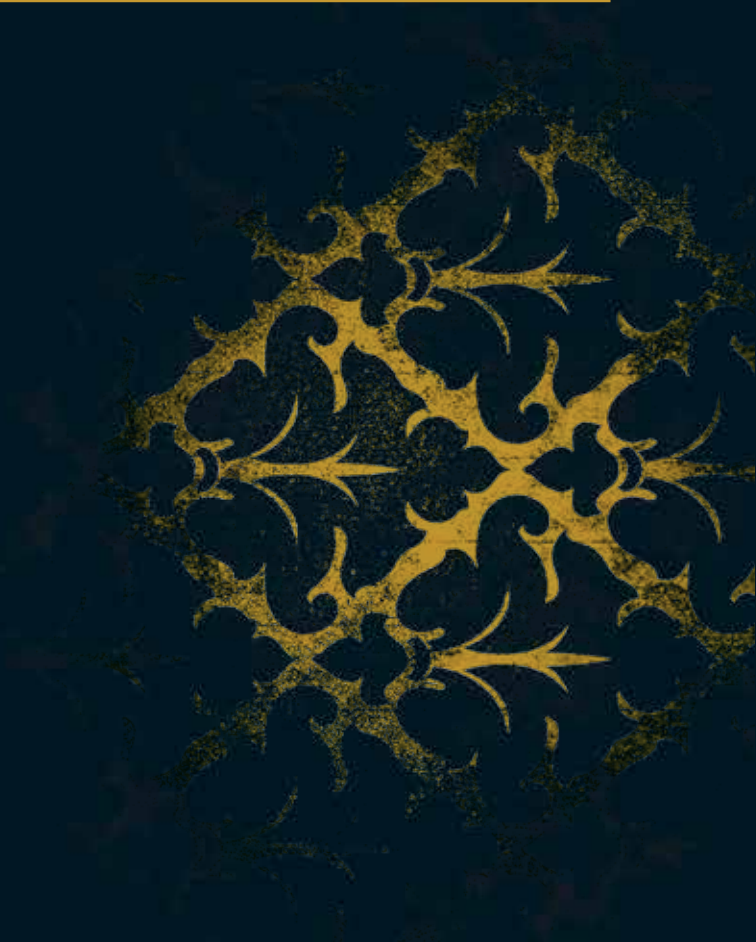

We bequeath our best technical assistance to manufacturer in order to get the best highest & successfully sway each & every process till the goods are been shipped into the container. We have such manufacturers from whom we can get the best results & the fastest lead time. We are monitoring very closely and forwarding the weekly status to our customer. Our motto is to establish the long lasting business relationship. As a versatile textile trader, we are committed to boost our customer's business in the global marketplace.

# Quality Assurance

We at AA Multisource believe in maintaining systems and control measures from grass root level till end at all processing stages in accordance to AQL system to deliver immaculate products. Our quality assurance personnel stationed at all manufacturing sites ensure that all production units are geared to run on AQL, thereby eliminate last minute rejection factor and to avoid unacceptable surprises to our customers.

## An Action Plan to Meet Your Exact Expectations

As supervision, our work philosophy demands a role much more dynamic, competent and personal than merely being your representative office. Our textile manufacturers and suppliers have their own standards of quality apart from adhering to those prescribed by us or by the buyer. Some of the key features of our quality assurance approach are as follows:

We at AA Multisource believe in maintaining systems and control measures from grass root level till end at all processing stages in accordance to AQL system to deliver immaculate products. Our quality assurance personnel stationed at all manufacturing sites ensure that all production units are geared to run on AQL, thereby eliminate last minute rejection factor and to avoid unacceptable surprises to our customers.

### Supervision

During bulk production and sampling, regular supervision of the process by our skilled staff is ensured at every step to avoid any discrepancy between the actual product and the approved sample.

### Quality Control Tests

At AA Multisource, we utilize technological know-how and the most reliable and well-equipped testing sources to conduct the required quality tests on the product. If required also co duct outsource tests by international testing agencies like SGS, TTL etc...

### Buyers Get Regular Updates

We keep periodic records of the production status and reports to buyers as frequently as they wish. Bulk production samples are also sent upon buyers' request.

### In-line & Random Quality Inspections Reports

Our Quality Inspection team performs quality inspections in-line & at random, make inspections reports daily basis and keep updates to concerned buyers.

### Final Quality Inspection Report

A final quality inspection is carried out and a clearance Certificate is issued. The quality report is sent to the buyer for approval prior to shipment.

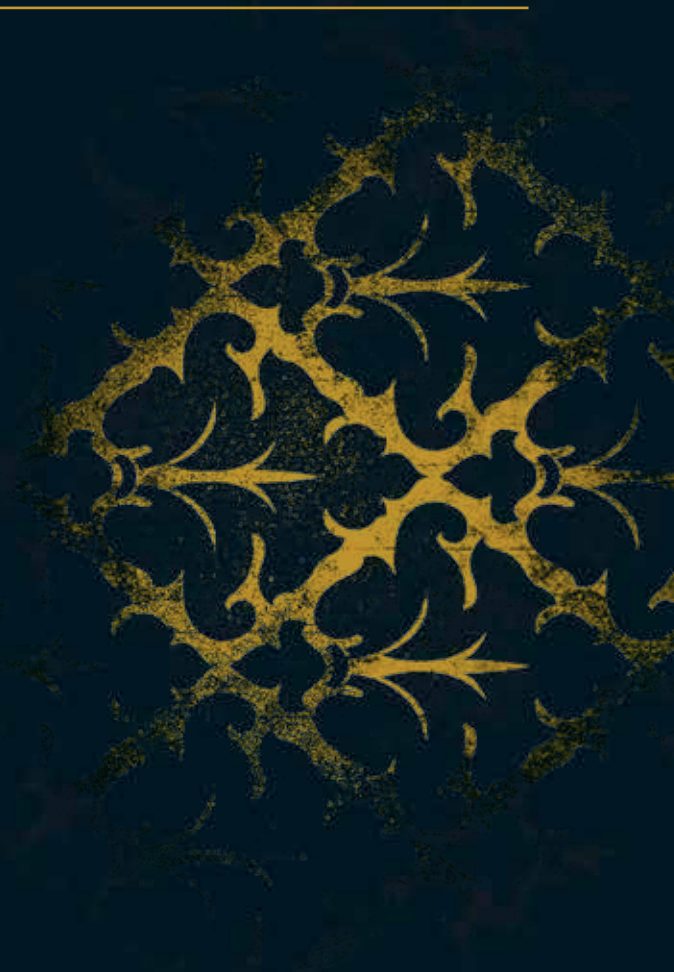

# Textiles Towels

The increasing demand of textile products in the entire world, made difficult to choose the real supplier especially when you are thousands of kilometers away from vendor. AA Multisource provides all those facilities that you are searching for. Evaluating the customers demand, selecting the right vendor, providing the sufficient feedback, working as the bridge in between customer and vendor and keeping an open eye, on every step are the main objective of AA Multisource. We are working in Textile and Towel sector with calculated professional approach so that the quality of job should be maintained. We are affiliated with reputable textile vendors, those who have strong backup.

Normally the customers have to face the problematic situations due to delayed shipments, poor quality of finished goods, documentation errors and many more, but you can truly depend on AA Multisource to get rid of all the undesirable happenings.
